Wilson's Election Claimed by 280

**Republicans Still Claiming
There is a Chance for
Hughes**

**VOTES VERY CLOSE IN SEVERAL
STATES, BUT INDICATION
FAVOR WILSON.**

A telegram from Frankfort says Wilson is elected, receiving 780 electoral votes. 266 is the number necessary for electing.

The returns from the election received Tuesday night apparently favored the Republicans, and continued to do so up to 3 o'clock Wednesday morning, when they began to take on a different color. Before nine o'clock that morning Wilson's election was conceded by some of the largest newspapers in the country. All day Wednesday the reports indicated considerable doubt and both sides were claiming the victory, but the Democrats claims were more definite and persistent. Wednesday night all reasonable doubt seems to have been removed and Wilson was generally conceded to be the victor.

The West went almost solid for Wilson. California was one large western state which did not run true to the pace set by her sisters of the west.

New Hampshire was lost to Wilson by only about 500 votes.

Ohio went strongly for Wilson and also elected Gov. Cox, Senator Pennington and the entire Democratic ticket.

West Virginia is in the Democratic column from Wilson down.

The Republicans won't New York, Illinois and Indiana.

In other columns will be found election reports as gathered by the Associated Press. Some of them are the earlier reports which later returns have changed.

LEST WE FORGET.

An indictment against the Louisa & Fort Gay Bridge company was returned at the recent term of court here, charging it with collecting more toll than the law permits. The case was tried a few days later and the bridge company was exonerated. The indictment was made under an old act that was set aside by a judgment of the United States Supreme Court.

The bridge charges three cents for a foot passenger, single trip; ten trips for 25c; school children one cent; \$1.50 per month for one person crossing as often as desired.

Before the bridge was built the cost of crossing by ferry was five cents. During low water it cost 5c to walk across on boats and stages laid across. When the bridge was built the public at first thought it a great improvement and convenience to be able to cross that way at half and less what it had formerly cost, and to get rid of going up and down the banks in sand and mud.

After being compelled to wait a considerable time for the boat to come over. The advantages of uninterrupted travel during the highest stages of the rivers, when ice was forming or running, and at all times, both night or day without delay, on foot or in any sort of conveyance, were enthusiastically discussed and appreciated for a time. But people are prone to forget all too soon the travails of the past.

The men who promoted the bridge enterprise had great difficulty in carrying it through. The public was doubtful about whether it would pay. It was no easy task to raise the \$42,500.00 spent in building this bridge.

Less than \$30,000 of stock was sold. Buyers for more stock could not be found. The directors found themselves forced to execute their personal notes to raise the remainder of the money.

The bridge is said to be the third largest tax-paying property in Lawrence county. This expense, together with painting the iron work, keeping the floor, herring, toll-house, keepers, keeping up the approaches, the general deterioration of the property, along with some incidental expenses, amount to a large sum annually.

92 YEARS OLD.

Lexington, Ky.—Optimism and temperance, said J. E. Curtis, in this city is the key to old age. He celebrated his ninety-second birthday anniversary today. For sixty-five years he has been a thirty-third degree Mason, as was his father and grandfather. The latter sat in lodge meeting with George Washington before his presidential term. Until ten years ago, Mr. Curtis was editor and owner of the Pan-Handle, Wellsburg, W. Va. He is hale and hearty and attended church Sunday.

SPOKE HERE SATURDAY.

Hon. H. V. McChesney spoke at the court house at Louisa Saturday afternoon, to a crowd that filled the court room. The close attention and hearty applause accorded the speaker was conclusive evidence of the strong speech he delivered. It is declared to have been one of the best speeches that has been heard here. The audience was greatly pleased and most favorably impressed. Mr. McChesney is one of the most popular speakers in the State, and is always welcome at Louisa.

MRS. G. W. ATKINSON TO DELIVER AN ADDRESS SUNDAY.

Mrs. Ruth Atkinson, of Paintsville, will be in Louisa next Sunday and by request will occupy the morning service hour at the M. E. Church South. Her subject will relate to missions, on which she is recognized as an authority. Mrs. Atkinson is a very bright woman and her addresses are always exceptionally interesting. No one should miss hearing her next Sunday morning at the court house.

N. & W. TO ESTABLISH PENSION DEPARTMENT.

Roanoke, Va., Nov. 7.—The board of directors of the Norfolk & Western Railway company have made arrangements for the establishment of a relief pension department, according to an announcement from the office of the president. The object of the new department will be to aid the retired and pensioned servants of the road in reward for their efforts and loyalty.

DEATH OF WAYNE COUNTY WOMAN

Mrs. Effie Ross, wife of Hall Ross, died at her home in Guyandotte. Her husband and three children survive. Interment was made at Shoals, Wayne County, on Thursday, Nov. 9th.

GROW POTATOES AND ONIONS.

The advice of those in position to judge is for our farmers to grow more Irish potatoes and onions next year than ever before. The earlier potatoes are the most profitable for this section, because they reach the markets far in advance of the crops from the north, where the greatest crops are raised.

The price is certain to be high on early potatoes next year because the crop is so short in the north this year that practically none will be carried over into next season. The farmers in Kentucky and West Virginia will find early potatoes profitable as a regular crop.

Onions are in good demand every year at prices that pay excellent returns on the investment. It will pay our farmers to give more attention to this crop.

Care should be used to select and keep a sufficient amount of good seed potatoes for next spring, as it will be difficult to procure them if the shortage is as bad as reported.

SAM STRACHAN.

Samuel F. Strachan, Commercial agent for the Central States Dispatch, Baltimore & Ohio fast freight line, promoted and transferred from New Orleans to succeed W. E. Magill, promoted. Mr. Strachan has had much and varied experience in the railroad service, having started his career with the Chesapeake & Ohio, leaving it 11 years ago to associate himself with the Baltimore & Ohio, for which system he has been soliciting traffic in various parts of the South.—Pittsburgh Dispatch

The above was published in the Dispatch under a nice fat picture of a Louisa "boy" who has climbed high in the railroad business. Sam made a big success in settling business for his road in the South. We are all delighted to hear of his promotion.

MANY PAPERS MAY SUSPEND.

A suspension of numerous newspapers in the United States will occur within a few months because of the scarcity of the advance in price of print paper, according to a statement made by J. C. Clark, of Cincinnati, representative of the Western Newspaper Union, before the Bluegrass Publishers and Printers' Association, which was formed at Lexington, Friday. Mr. Clark said that within the past few days two newspapers had cancelled orders for paper, saying they would have to suspend operation until the price was reduced. He also said that print paper would reach the unparalleled price of 10 cents a pound before the end of February, 1917.—Cynthiana Democrat

HAVE AN OPEN FRONT HOUSE.

The poultry house should be built with open front facing south, with a curtain to hang up on cold nights and in rainy weather. Roosting poles not over two feet high. If roosts are high the chickens will bruise their feet when flying from the roost and cause bumblefoot. Keep house well cleaned of droppings. Kill mites with coal oil and soapuds. Sprinkle nests with snuff to keep down lice and mites in nests.

BLOWN UP BY NITROGLYCERINE

Winchester, Ky., Nov. 1.—While preparing to move 300 quarts of nitroglycerin from Sweetlick to the Furnace lease in the Estill county oil fields, J. E. Clouse and James Edwards, oil well shooters, were blown to atoms this morning. They lived at Monticello and had been at work in Wayne-co., having been in the Estill field only about five days. Clouse has a wife and five children. He had been in the nitroglycerine business seven years.

THE DIRT ROADS DESERVE ATTENTION NOW.

The county that can afford to macadamize only some of the worst places in its roads and some of the main lines of traffic need not be discouraged about its highways. After it has macadamized the roads where the demand is greatest it should have the other roads laid out the best way to serve the people and to get them on a good grade, not over 5 per cent. Adequate road machinery should be bought and the roads should be graded and rounded up so the water will run off of the roadbed and into the gutters quickly. Culverts and bridges should be put in as rapidly as means will allow and of the best material available.

By this system the roads can be made good for about eight or nine months of the year in the South. Then if split-log road draggers are constructed and provisions are made to use them after heavy rainfall and when freeze is going out of the soil, these dirt roads can be kept good nearly all of the year and will come through the winter comparatively free from ruts, so that as soon as they dry off in the spring they will be smooth and in first-class condition.

The split-log drag is giving satisfaction out in Missouri, where the soil is as bad as road soil as the worst we have in the South, and is much inferior to the average road soil of our section. It will do the work for us—it is doing it in some cases—if its use is learned, the roads are given the proper shape with graders, and then a plan is adopted that will insure the roads being dragged each time when needed.

Some one must be hired to do the work and an official must see that the work is satisfactorily done before it is paid for. It is just as well to pay out some money for using the split-log drag as it is to keep in repair the hard-surfaced roads and to pay an extra amount of interest on the bonds voted to build the expensive roads.

HOW TO GET WINTER EGGS.

In order to obtain eggs it is necessary to have healthy, vigorous stock, properly fed, and a good dry place for them to stay in at night.

See that the fowls have plenty of green feed. Always sow a patch of rye for the chickens, or better still, have a mixture of oats, rye, and clover sown together.

Have a place for the chickens to scratch. Put the wheat, corn and oats in straw and let them scratch for it. This will give them plenty of exercise and help to keep them warm.

Give one pint of grain feed to each dozen birds twice a day, and just before going to roost allow them to have a hot mash made by cooking some vegetables, such as turnips and cabbage, and also using the table scraps, such as cold bits of meats, etc., and mixing this with bran.

Have a comfortable house for the fowls. The sides, top and back must be tight. Have the floor facing the south, and see that the floor is dry at all times. In order to have healthy fowls the house should be cleaned out as often as once a week.

J. F. KNAPP DEAD.

Mt. Sterling, Ky., Nov. 6.—John F. Knapp, 65 years old, one of the wealthiest and most widely known men in Eastern Kentucky, died Sunday morning at Morehead, Rowan-co., after an illness from carbuncle and kidney trouble. GYPSY PARTY.

On last Saturday afternoon Miss Shirley Burns took her Sunday school class to the tabernacle on "the Point" and all enjoyed a gypsy dinner cooked and eaten there. It was a beautiful day and the trip was made in Miss Shirley's automobile. The children enjoyed the outing very greatly.

OIL FIVE CENTS LOWER.

The price of Kentucky oil was reduced 5 cents per barrel last week. Production in the Irvine field continues heavy, but many dry holes are now being drilled around the edge of the field. Development in the field near Louisa continues about as usual. Dry holes are now very seldom found in this territory, which is well defined.

MOTORED TO LOUISA

Ashland Independent—Miss Marie Wilson, Paul Porter, Lizzie Porter, John Mullins and Mr. and Mrs. Herman Barber motored to Louisa Sunday and spent the day with Mr. and Mrs. John Wilson.

Mt. Sterling, Ky., Oct. 31.—The Chesapeake & Ohio road has just effected a compromise with Mrs. Adn Kelly in the damage suit for \$35,000, instituted by her as administratrix, for the killing of her husband, Matt S. Kelly. The accident happened about five years ago. Kelly's engine turned over with him near Aden, Carter county. The amount paid in settlement of all costs, attorneys' fees and damages will reach about \$16,000.

KENTUCKY GIVES WILSON BIG VOTE

LAWRENCE COUNTY'S REPUBLICAN MAJORITY SMALLEST ON RECORD.

The election in Lawrence county was an endorsement of Wilson. The vote was as follows:

For President
Wilson, 1910
Hughes, 1928

For Congress
Fields, 1880
Pennington, 1926

Appellate Judge
Roberson, 1888
Sampson, 1914

In presidential years this county has been going from 176 to 260 Republican.

Ninth District
Congressman W. J. Fields is re-elected by an increased majority of over 3000.

Courier Journal says practically all the large newspapers concede Wilson's election.

Boyd county gives Hughes 148 majority. Its normal Republican majority is 900 to 1000.

Boyd county gave Hughes a majority of 148 over Wilson. W. J. Fields, Democrat, won over A. J. Pennington, Republican, by 50 votes.

Carter county gives Hughes a majority of 800 over Wilson. Pennington, Republican, has a like majority over Fields, Democrat.

Greenup county gives Hughes a majority of 200 over Wilson. A. J. Pennington, Republican, had a like majority over W. J. Fields, Democrat. Elliott county gives Wilson a majority of 585 over Hughes. W. J. Fields, Democrat, had a like majority over A. J. Pennington, Republican.

Other Counties

Johnson county gave a reduced majority of about 1100 for Hughes. Floyd county went nearly 400 Democratic.

Pike county gave Hughes only 700 majority, which is but little above half the normal Republican majority.

Martin county did give Hughes as much majority as usual.

Gardner and Arnett Elected

Judge D. W. Gardner and Floyd Arnett were elected Circuit Judge and Prosecuting Attorney in the new district composed of Magoffin, Morgan and Wolfe counties.

Kentucky Democratic.

The majority for Wilson in Kentucky is reported to be somewhere between 20,000 and 25,000. This is larger than has been given in a presidential race for many years.

All Congressmen were re-elected.

FAULKNER-PARSONS.

The following from the Ashland Independent will be of interest here, as Mr. Parsons was in Louisa for some time as telegraph operator and has many friends here:

A wedding that was a surprise to the bride's friends in this city, is that of Mr. D. L. Parsons, joint agent for the C. & O. and C. & O. roads, was married October 18, to Miss Georgia Faulkner of this city.

Mr. Parsons has his headquarters at Elkhorn City where these young people will go to housekeeping. They were married at the home of the bride's sister in Cincinnati. Dr. Parsons is the brother of Dr. C. H. Parsons, the dentist, of this city, and they were married on the same day though Dr. Parsons did not know that his brother was to be married. Dr. Parsons' brother was to have been at his wedding but as he had his own wedding to attend he did not come here from Louisville.

CAUSE OF COLDS.

Indianapolis, Ind., Nov. 5.—An epidemic of "colds" over the greater part of the State has caused the State Board of Health, through Dr. J. N. Harty, its secretary, to issue a short circular on "How Colds are Caught." It says in part:

"All colds, and indeed all diseases of the breathing organs are due largely to air starvation. Overeating lessens resistance for a brief period while the abused stomach is trying to digest the overload of garbage, and this abuse of the body being followed by a second abuse if not giving it enough air runs resistance down so low that the 'cold' microbes, which are everywhere, get in their work."

"The sure remedy against colds is to eat moderately and breathe the plenty of pure air. Of course, the skin, kidneys and bowels must act correctly, for if they do not this, too, will reduce resistance and let the microbes grow in the nose and other air passages."

"Every man is the architect of his own colds. Bronchitis, pleurisy, pneumonia and tuberculosis are routes to early death and they trail after colds."

DAVID GOFF KILLED BY TRAIN.

David Goff, of Nolan, W. Va., fell under a passing N. & W. train at that place last Sunday night and was so badly mutilated that he died soon afterwards. He was taken to the office of physicians, but medical aid could not save the young man.

Mr. Goff was a relative of Chas. F. See's family of this city.

BEST BULLOCKS SELL AT RECORD PRICE

AND ARE BELIEVED NOT TO HAVE REACHED THE TOP.

Chicago, Nov. 3.—Cattle trade has shown decided irregularity this week, especially on intermediate warmed-up beef steers, bids in many instances on such being as much as 50c apart. The close on the bulk of these reveals little change in value from a week ago, but good to choice bullocks have been marked up 10¢-25¢ and common grassers have moved with some facility at recent prices, cheap steers having a worth-the-money appearance. A new open market record top of \$11.75 has been hung up on prime heavy bullocks, and it is not expected to stand long as the record, confidence existing that \$12 will soon be quoted, as the visible supply of heavy-fed steers capable of high dressing percentage is small. A year ago the same class of steers was well sold at \$10.25.

In the hog trade the market hopper has overflowed this week with pigs and light weights, which have encountered rather severe declines, most of them now showing a 50¢-75¢ loss from a week ago. This little stuff began running late this year, but the market horizon is full of it, many growers preferring to cash at light weight and save corn. Packers have been threatening to buy hogs during the winter, thus impairing feeders' confidence. Good to choice heavy butcher and heavy packing hogs sold yesterday within 25¢ of a week ago.

Record Price for Sheep.

Live muttons are selling at record prices for this season of the year and will work higher as the winter approaches. The range movement has dwindled to a comparatively small delinquency of feeders, but many warmed-up Western stock out of the feeding belt has been run freely this week because it shows a profit and because of timidity over running up a heavy feed bill, the corn market having soared still closer to the 90c mark. Top lambs reached \$11.25 on the week's high spot, and although \$11 was the limit at week-end, the trade is confident of a speedy reaction to higher levels, prediction of \$12 lambs before Christmas being freely indulged in.

The chief handicap to the beef steer trade this week has been a preponderance of one kind of cattle, short-fed and warmed-up stuff. The percentage of steers above \$10.25 has been small, while a large slice of the crop has sold below \$9.50. There is apprehension in trade circles that the next 60 days will witness excessive supply of warmed-up stuff that would have been carried along with a less onerous feed bill. The situation is peculiar in that while half-fat cattle are being shot into the market regardless of what they realize, many stockers are going into sections where corn is realizing the highest prices on record. Most of such cattle will be roughed through the early part of the winter for a corn finish toward spring when they will have less competition. There are signs of subsidence of the heavy marketward movement of grassers from the trans-Missouri area. Six points have received about 25,000 fewer cattle this week than last. Beef gathering in the West will subside in a reasonable manner and if liquidation of half-fat stuff could be averted, the market would doubtless give a good account of itself.

Foresees High Trade Ahead.

Forecasts are dangerous alike to forecasters and those who give them credence, but the signs point to a high winter and spring cattle market. The board bill is high and short feeding periods will be the rule. Unless news of the Argentina drought is radically wrong, exports will increase and diminution of domestic consumption is improbable.

Beef trade is not battling with cheap pork as was the case a year ago, and mutton is so high that sheep cannot be regarded as competitors. Long fed heavy bullocks have been selling this week up to \$11.25@11.75. They are few in number as the prices indicate. A few loads of choice long-fed yearlings have claimed \$11 and better, but that kind, too, are scarce.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT, GLOSSY, WAVY

25-CENT BOTTLE DESTROYS DANDRUFF AND DOUBLES BEAUTY OF YOUR HAIR.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine

and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

THE HOME CIRCLE AND ITS INTERESTS.

Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

Spoiling Children.

The president of the Chicago Board of Education is severe in his criticism of parents, of whom there seems to be a legion in that city who manifest no discretion in the training of their sons. The High schools are full, according to this official, of pampered boys who wear wrist watches, think only of society life and its pleasures, and are carried to and from their homes in limousines with liveried chauffeurs at the wheel.

Only boys of exceptional qualities can survive much of this sort of thing, as myriads of parents have realized bitterly and too late. Over indulgence spoils many a man and woman in the making, who might if thrown entirely on their own resources have made worthy human products of themselves.

The fact is not generally realized, but it requires the co-operation of two wise and loving parents to train a child up and bring out his latent possibilities. Now and then an unusual father and mother can do it, if the child is somewhat above the average. But ordinarily if the father is too occupied with business or away most of the time, or if mother is too busy with her woman's interests or too neglectful, or if either one of them is defective in head or heart, the vain and silly girl, the selfish and vicious boy, the wild son or the wayward daughter is the result. It is commonly possible to estimate, with some approach to accuracy, the mental and moral development and discretion of parents by the appearance and behavior of their children on the streets.

The Boy And His Mother.

One of our young men asks us the following question:

"What do you think of a young lady while in the company of a dude masher, remarking of an old schoolmate of hers, that 'he is a good boy but tied to his mother's apron strings, and is of no good on earth.' Will not the boy come out ahead if he supports his cares for the mother?" Come out ahead? Well, of course he will. A girl who would make such a remark is not worthy to blacken the shoes of a boy who is kind to his old mother. Such a girl has no more heart in her than a turnip, and is only fit—oh, she isn't fit for anything. She ought to be taken across the knee of her own mother until she thinks it is about the middle of August. The most heartless thing in the world is for a person to make such a remark as that quoted above about a young man who is proud of his mother, and loves her so that a tear in her eye is like a drop of melted lead on his heart. The young man who heard of such a remark being made about his relations with his mother no doubt felt that he had rather not have heard of the remark, but it is lucky that he did, if he thought he had any affection for that girl. She would not have said it in his hearing, which shows that she is a hypocrite and a two-sided person. If he married that girl Davidson, Mrs. Oriole Carnahan and

he would have a little hell of his own. Such a girl would make a man wish he had never seen any woman except his own mother.

What Boys Think They Should Learn.

According to the idea of many of the rising generation a young man should learn to lie, to flirt, to cheat, to swear, to drink, to play billiards, to swagger in the streets, to live without work, to ogle every pretty girl he meets, to treat his elders with disrespect, to talk loud in the presence of others, to put on style whether he can afford it or not, to bust of the feminine conquests he has made, to have every slang term on his tongue's end, to gossip with his chums about his lady acquaintances, to attract all the attention to himself that the possibly can, to talk like a loafer and a top instead of a quiet, sensible man, to call his father "the old man" and his mother "the old lady," to think ill of every woman he sees, and to speak ill of her every chance he gets, to turn up his nose at those quiet, sober, industrious young men who do not train in his crowd, to treat his sister without any sort of regard, to treat her like an ill-bred loafer instead of like a gentleman.

Here is your picture, fast young man, true to life. Look at it! How do you like it? What have these characteristics made of you? What will they do for you? What has the future in store for you? Unless you change your course most radically—Run.

What is learned in the cradle is carried to the grave.

We wonder how many parents realize that their child is a book of blank paper in which shall be recorded the record of their own lives. Be careful therefore what you have written there for the world will read it. All your secret thoughts the child will try to write.

If you have a bitter pill to take gulp it down, don't chew it. So many people chew their pills, and oh, how bitter.

Nothing permanent was ever gained in business, friendship or love by insincerity of word or act.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

EAT WITHOUT FEAR OF INDIGESTION OR SOUR, ACID STOMACH

INSTANT RELIEF! "PAPE'S DIAPHEPSIN" ENDS YOUR STOMACH TROUBLE FOREVER.

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases; and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diaphepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diaphepsin occasionally keeps the delicate organs regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diaphepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

The election is over, and now for a resumption of business. This has been one presidential election that did not disturb the tide of business. No such thing ever happened before because we never before had the anti-panic law, otherwise known as the Federal Reserve Banking law.

The election is over and the result must stand, no matter how achieved, but we can not refrain from mentioning one instance showing the extent to which the big and unholly money interests go in trying to deceive the public. A full page advertisement appeared the day before the election in the Cincinnati Enquirer and many other large newspapers throughout the country, pretending to give the earnings of the Steel Trust each year from 1902 to 1915, as a barometer of business. They give 1914 earnings as \$23,000,000, the smallest in all those years; and that is the point they emphasize in the article. But it so happened that in the same issue of the Enquirer, in the news columns, appears a report from

the Manufacturers Record, a bitter Republican journal, showing for comparison the third quarter's earnings of the Steel Trust for 1914, 1915 and 1916. It shows for that three months in 1914 that the earnings were (in round numbers) \$23,000,000. So you see the advertisement uses the earnings of three months in that year against twelve months in every other year, because the Underwood tariff law was enacted in 1913 and they wanted to fool the voters into believing there was an enormous slump in business. The reason they did not publish the advertisement sooner was to avoid giving time to correct the falsehood. There is nothing the Wall Street crooks will not resort to in order to fool the voter who is not in position to know all these things.

If the vote tomorrow were to be cast for most popular roofing, instead of for the election of national officials, there would be an overwhelming plurality in favor of CERTAIN-TEED Roofing.

This is indicated by the fact that "The General" makes 1/3 of all the asphalt roll roofing made in America. The balance is "scattered" among 39 other manufacturers.

Each year CERTAIN-TEED rolls up a strikingly increasing number of advocates, because this type of roof is coming to be recognized as the most efficient covering for all kinds of buildings, with either flat or pitched roofs.

Certain-teed Roofing

is clean and sanitary, costs less to buy, less to lay, less to maintain and less per year of life. It is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). It actually lasts longer.

The secret of this long life lies in the quality of the roofing felt, and the asphalt saturation. Roofings do not wear out—their life depends upon the length of time they retain the saturation. CERTAIN-TEED is made of the best quality of roofing felt; and is thoroughly saturated with the General's own blend of soft asphalt, which keeps the inner saturation soft and prevents the drying-out process so destructive to the ordinary roofing.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.

PONY BOY.

ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

GIVE IT WHEN FEVERISH, CROSS, BILIOUS, FOR BAD BREATH OR SOUR STOMACH.

Look at the tongue, Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

PLANT SOME FRUIT TREES THIS FALL

Don't overlook the orchard. It pays to grow fruit, as everybody likes it, and it is no trouble to sell. I have people to come six miles to my orchard for fruit to can or dry.

A little labor in the orchard adds greatly to the looks of the trees and prolongs their life. Try a few days in that old orchard this fall and winter.

If you have none, get busy and set one. Take pains to select good varieties and to set them properly. Trees set in dynamited holes will grow faster and bear much earlier.—Southern Agriculturist.

COMPLETION OF COUNT IS NECESSARY

Late Reports From Doubtful States Bring Surprises

PARALLEL CONTEST OF 1876

Political History Enriched By Amazing Swing Back and Forth of Returns in the Presidential Election.

New York, Nov. 8.—American political history was enriched by the amazing swing back and forth of the returns for Hughes, again for Wilson and for Wilson and again Hughes. First returns available, showed Wilson leading. Then came a Hughes sweep, with a tremendous lead in New York and reports of a big plurality for the G. O. P. in Kansas, Massachusetts, preliminary reports added to the Republican candidate's growing list.

But again the swing changed. A Wilson drift set in. Ohio went unmistakably Democratic.

The shift in sentiment was exemplified by the shifting headlines in the New York papers. The New York Times (Dem.), after conceding the election of Hughes, issued an extra saying, "It looks as if Wilson is elected."

The New York Tribune, Republican, after announcing the election of Hughes in a "clean sweep" of the country, described the situation in early editions as follows: "Hughes leading in close race."

Upon doubtful States from which the returns were slow coming, depended whether Mr. Wilson was re-elected or whether the next President of the United States was Charles E. Hughes.

Republican Chairman Willcox claimed every state generally classed as doubtful and counted 323 votes for Mr. Hughes.

Democratic Chairman McCormick, in a statement, declared President Wilson surely would have 304 votes in the electoral college. The actual complete returns gave President Wilson 260 votes and Mr. Hughes 238.

On the votes of California, Delaware, Idaho, Indiana, Kansas, Minnesota, New Hampshire, New Mexico, Oregon, Washington, West Virginia and Wyoming, the decisive result of the Presidential election turned—total 87 votes.

There seemed to be no doubt that President Wilson had safely carried Alabama, Arizona, Arkansas, Colorado, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nebraska, Nevada, North Carolina, Tennessee, Texas, Utah and Virginia.

In the Hughes column were counted: Connecticut, Illinois, Iowa, Maine, Massachusetts, Michigan, New Jersey, New York, Pennsylvania, Rhode Island, South Dakota, Vermont and Wisconsin.

From the doubtful states the returns continued to point first toward one candidate and then toward the other. From the doubtful states the returns came in slowly. The chairmen of the Republicans and Democratic committees both claimed victory for their respective candidates.

The Republicans seemed to have the best prospects in Indiana, Oregon and West Virginia. In the other states listed as doubtful except California, the Democrats appeared to be leading. The latest returns did not show that the Republicans have overcome the Democratic majority in the House of Representatives nor in the Senate.

With about 100 congressional districts to be heard from, the Republicans made a net gain of eight members in the House, but late returns from New York indicated that two of these might be reversed. With a net gain of eight it would leave the House with a Democratic majority of seven.

Frank Hitchcock, original Hughes booster and political expert of the Republican camp, declared that the election of Hughes depended on the results in California or Minnesota.

Democratic national headquarters claimed 270 electoral votes for Wilson as absolutely certain. Their claim included California.

In the Senate the Democrats showed losses from New York, New Jersey and Maryland. The indications were they would lose the two senators from Indiana, one from West Virginia, and possibly one each from Ohio, Montana and Arizona.

The Democrats gained three senators from Rhode Island, Delaware and Utah. Conceding all the probable Republican gains it would give a net Republican gain of seven in the Senate and leave the Democratic majority at two.

Aside from the uncertainty of the result, the most remarkable thing about the election was the sudden wiping out of the Hughes majorities piled up in the East by the returns coming in from the West. When the Republican landslide in New York became known and was quickly followed

Woodrow Wilson & Thos. R. Marshall

by the heavy Republican victories in New England, there was a veritable stampede to announce the election of Mr. Hughes and the defeat of President Wilson.

Hundreds of thousands saw the signal lights flash the defeat of the President. New York newspapers which had been prominent in their support of him, conceded the President's defeat even before some of the Western states had been heard from. Thousands of persons in the East went to bed believing Mr. Hughes elected and woke up to find the result apparently changed while they slept.

Hundreds who made their plans for what they expected to happen found them set all awry.

The first figures of Wilson majorities through the West did not shake the confidence of those who were predicting the election of Mr. Hughes, and not until the steady stream of Wilson majorities began eating the Hughes columns piled up in the East did any of them suspect that the result was in danger.

Not since a next day's revision of the returns seated Grover Cleveland in the contest of 1892, was the country compelled to wait so long to know the result. More than 12 hours after the polls had closed Mr. Wilson and Mr. Hughes were running a neck-and-neck race in doubtful states.

REPUBLICANS ANNEX ILLINOIS

Thousands of Women Vote For First Time—Indicated They Followed Hughes—Lowden Elected Governor Over Dunne.

Chicago, Ill., Nov. 8.—Illinois was carried by Hughes by a plurality of 175,000. Likewise Frank O. Lowden, for Governor, defeated Governor Edward F. Dunne, the Democratic incumbent, by about the same figure.

The vote for Hughes by the workmen, especially in Chicago and other big industrial centers, was the surprise to the Democratic leaders, who had confidently expected that the labor vote would "stick" to their party.

Democratic managers had claimed the woman vote of the state and a keen disappointment was felt over the result. Six hundred thousand women voted for the first time. Because of the pacifist issue, it was predicted that they would fairly storm the polls with their votes for the President, but they did not materialize.

In the agricultural districts and throughout the central and southern part of Illinois, Wilson did not show to advantage.

A defection in the normal Republican vote was caused by the labor vote in some of the railway centers of Illinois, but this was made up by the swing of the business men to the G. O. P. ticket.

Returns from North Dakota indicate that Hughes had carried the state and that McCumber had been re-elected United States Senator over John Burke, Federal Treasurer.

Iowa went Republican by more than 50,000 for Hughes and more than 100,000 for W. L. Harding, Rep., for Governor. The rest of the Republican state ticket and a majority of Congressmen were elected. A bitter fight was made on Harding by churches and organizations which charged that he was opposed to prohibition, but Harding ran ahead of the ticket in nearly all counties of the state.

Nebraska, as per schedule, went gracefully into the Democratic column. South and North Dakota by majorities much reduced from normal, went for Hughes and Fairbanks. California was more or less in doubt, with the indications strong that it would be Republican.

LONGWORTH WINS.

In the First Ohio District, Congressman Nicholas Longworth, Republican, son-in-law of Colonel Theodore Roosevelt was re-elected.

PRESIDENT WINS IN KENTUCKY

State Gives a Democratic Majority of 15,000—Nine Out of Eleven Democratic Congressmen Elected.

Louisville, Ky., Nov. 8.—President Wilson carried nine out of eleven congressional districts in the state by a plurality of 15,000.

Charles Evans Hughes carried the normal Republican section known as the mountain parts and comprising the tenth and eleventh districts.

Even though the G. O. P. sent many national speakers into the state, including two visits from Mr. Hughes, a tour by Colonel Roosevelt in the eastern end of the state, while Mr. Fairbanks, the vice-president, used a special train and made speeches in scores of towns throughout the penny-rite or dark tobacco parts, the Republicans failed to make any noticeable gains.

They had figured that because of the close race between Stanley, who was elected Governor last year over Edwin P. Morrow, the Republican aspirant, by a few hundred votes, that their chances for carrying the state were splendid. Their calculations did not materialize and Kentucky again becomes a part of the "South always solid for Democracy."

Judge Flem D. Sampson, Republican, of Barbourville, was victorious over Judge J. M. Robinson, Democrat, of Pikeville, in the race for the seat on the Court of Appeals bench from the Seventh District.

Judge Charles H. Bush, Democrat, was re-elected to the Circuit Court bench over Sam P. Truitt, Republican, in the Third Judicial District.

Democrats of the Fifth Kentucky District, which includes Louisville, were victorious at the polls, carrying the district for Woodrow Wilson by a majority of 700 and returning Swager Sherry to Congress by a majority of 1,275.

Kentucky Congressmen elected:

| First District—A. W. Barkley, D. | Second District—D. H. Kincheloe, Dem. |
| Third District—R. Y. Thomas, D. | Fourth District—Ben Johnson, D. |
| Fifth District—Swager Sherry, D. | Sixth District—A. B. Rouse, Dem. |

| Eleventh District—Caleb Powers, R. | |

HEAVY BETTING ON RESULTS.

In what was pronounced emphatically the wildest and heaviest betting campaign ever waged in New York on the outcome of a presidential election, more than \$6,000,000, it was calculated, was staked on the respective chances of Hughes and President Wilson.

DRY QUARTERS FOR THE STOCK

Most farm animals can stand considerable cold without injury, but nearly all of them are very sensitive to continued dampness. When they get wet and "shivery" they are on the road to trouble. Give all of them a chance to avoid the cold rains if they wish, and a dry place to sleep. The same thing applies to the poultry.—Southern Agriculturist.

"ANURIC!"

THE NEWEST

DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," manufactured by Dr. Pierce, or send 10 cents to Dr. Pierce for a large trial package. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Doctor Pierce's chemist will examine it, then Dr. Pierce will report to you, without fee or charge.

Note:—French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

Dr. Pierce's Pellets are the original little Liver Pills. One little Pellet for a laxative—three for a cathartic.

TENNESSEE IN WILSON COLUMN

Governor Rye Re-elected—McKellar New United States Senator.

Nashville, Tenn., Nov. 8.—Tennessee voters showed conclusively that they approve the present administration, both national and state, by giving

TOM C. RYE.

giving the big and usual Democratic majority.

Governor Tom Rye, Democrat, was re-elected Governor, and K. D. McKellar, Democrat, was elected to the United States Senate over former Governor Hooper, Republican.

Despite strenuous efforts on the part

KENNETH D. MCKELLAR.

of Republican leaders, little inroads were made on the "Volunteer" state. For the first time in many years that a Presidential candidate invaded the state, Charles Evans Hughes brought his campaign into this city but with little effect.

Governors were chosen as follows:

Arkansas—C. H. Brough, Dem. Colorado—J. C. Gunter, Dem. Connecticut—M. H. Holcomb, Rep. Delaware—J. G. Townsend, Rep. Florida—W. V. Kott, Dem. Georgia—H. M. Dorsey, Dem. Idaho—D. W. Davis, Rep. Illinois—F. O. Lowden, Rep. Iowa—W. L. Harding, Rep. Indiana—J. P. Goodrich, Rep. Kansas—Arthur Capper, Rep. Massachusetts—S. W. McCall, Rep. Michigan—A. E. Sleeper, Rep. Minnesota—J. A. A. Burnquist, Rep. Montana—S. V. Stewart, Dem. Nebraska—A. L. Sutton, Rep. New Hampshire—H. W. Keyes, R. New Jersey—W. E. Edge, Rep. South Dakota—Peter Norbeck, R. Tennessee—Tom C. Rye, Rep. Texas—J. E. Ferguson, Dem. New Mexico—E. C. De Baca, Dem. New York—C. S. Whitman, Rep. North Carolina—T. W. Bickett, D. North Dakota—L. J. Frazier, Rep. Ohio—James M. Cox, Dem. Rhode Island—R. L. Beekman, R. South Carolina—R. I. Manning, R. Utah—Simon Bamberger, Dem. Vermont—H. F. Graham, Rep. West Virginia—Ira C. Robinson, R. Wisconsin—E. L. Philip, Rep.

COUNTS WERE CLOSELY WATCHED

New York, November 8.—With the country's choice of a President in the almost unprecedented status of doubt on the day after election, both Democratic and Republican headquarters were scenes of nervous activity and tension. Although both sides claimed majorities in the electoral college, there seemed, nevertheless, to be a feeling at both places there was a chance that the determination of the final result with the States doubtful might be prolonged.

There were suggestions also that there might be in some States contests over the returns, which might be drawn out, with the result hanging on a recount. George W. Perkins, at Republican headquarters, commenting upon the close vote in some States, declared that a recount might be necessary.

OHIO STANDS BY WOODROW WILSON

Carries the State By 50,000—Democratic State Ticket Including Cox For Governor and Pomerene For Senator Elected.

Columbus, Ohio, Nov. 8.—Ohio, with its twenty-four electoral votes, again went into the Democratic column, giving Woodrow Wilson a margin of 50,000.

Former Governor Cox, Democrat, defeated the present incumbent, Governor Frank B. Willis, by a slight plurality, and it is believed that Senator Allee Pomerene, Democrat, will be returned, he having lead Herrick, Republican, by a small margin.

The northern part of the state, from Columbus to Cleveland, showed a large Democratic plurality, while Cincinnati cut the normal Republican vote down to a plurality of only about 10,000.

Cox ran ahead of Wilson in Cincinnati believed to have been due to a large support which he received from the German American vote, which is heavy in that city.

Lieutenant Governor Arnold ran ahead of Governor Willis in Cincinnati.

REPUBLICANS WIN INDIANA

Watson and New Defeat Taggart and Kern, Giving the Senate Two New Republican Members.

Indianapolis, Ind., Nov. 8.—Indiana rolled up a majority of 20,000 for Charles Evans Hughes and the Republican party.

James P. Goodrich, of Winchester, Republican, was elected Governor by a plurality slightly larger than that of Mr. Hughes.

Two Republican United States Senators, a long and short term, the latter caused by the recent death of Senator Shively, were elected, and Indiana has done more than the average state's share in helping to increase the Republican complexion of the Senate.

Harry S. New, of Indianapolis, was elected to succeed Senator John W. Kern and James E. Watson, Rushville, defeated Senator Thomas Taggart.

BALLOT THIRTEEN IS LUCKY FOR HUGHES

New York, Nov. 8.—Charles E. Hughes cast his vote in a small laundry. His ballot was No. 13. When his attention was called to this the candidate said: "Thirteen was his lucky number."

"And I was born on Friday, too," he added.

REPUBLICANS GAIN

In Texas Vote, But State is Safe For President.

Austin, Texas, November 8.—The Republicans made big inroads into the ordinarily big Democratic majorities in Texas. It is indicated that the total vote cast was approximately 325,000, of which 125,000 was for Hughes, 30,000 for Socialist electors and 170,000 for Wilson. The Republicans gained more than 100,000 over the vote cast for Taft in 1912.

TWO STATES "DRY;" MISSOURI "WET"

The state-wide prohibition amendment in Kansas carried by a majority of 30,000. Likewise in Michigan, where a similar amendment was offered, the "drys" lead by 15,000.

In Missouri the constitutional amendment prohibiting the sale or manufacture of liquors was defeated by 80,000.

IRA E. ROBINSON.

well, Democratic candidate, while Sutherland, Republican, assumed a safe lead over Senator William E. Chilton, Democratic candidate for re-election.

The vote in the state surprised both the Republicans and Democrats by going for the Republican ticket.

Intense interest was manifested throughout with the Democratic leaders conducting a most active campaign.

HOWARD SUTHERLAND.

bringing speakers into the state from all parts of the country.

Mr. Hughes was charged with being responsible for the decision against the state in the Virginia litigation, and it was believed that this would make decided inroads on their campaign. Again, predictions did not work out, as the vote shows that this had little influence with the voters.

Woman Suffrage Defeated.

By an overwhelming plurality, the amendment to the state constitution providing for equal suffrage for women was defeated.

West Virginia Congressmen chosen:

First District—M. M. Neeley, Dem. Second District—Sam V. Woods, D. Third District—Stuart F. Reed, R. Fourth District—J. A. Null, Dem. Fifth District—Edward Cooper, R. Sixth District—Dr. M. V. Godbey, Rep.

MRS. HULDA McCOWN.

On Wednesday, October 25, 1916, near the hour of twelve o'clock, aunt Hulda McCown, an aged woman of our community, answered the final call. She was the widow of Thomas McCown, who preceded her to the spirit world some years ago. She was 70 years of age, was converted about 32 years ago and with her husband united with the Methodist Episcopal church to which both proved efficient members until death. She was the mother of 6 children. One died in infancy, 3 boys and two girls survive her. The children are James, of Johnstown, Pa.; Floyd, of Busseyville; Lee, of Adams; Mrs. Green Berry, of Adams; Mrs. John B. Thompson, of Busseyville.

Mrs. McCown had been a sufferer for several years, but didn't give up until a few weeks ago, then she was taken from her old home to J. B. Thompson's where she remained until death. The children all were present when the end came, except Jim, who arrived a few hours after the soul of his sainted mother had fled from the care-worn body and made its way to the paradise of God.

As John stood looking up into heaven he tells us of a great multitude that he saw before the throne clothed in white robes with palms in their hands. They had come out of great tribulation. What character would be better described in this scripture than a sainted mother who would have given her life a thousand times for Him who has redeemed her and helped her in rearing her children.

The funeral took place near the scene of her death at the Thompson graveyard, being conducted by Rev. Wm. Copley, assisted by Sylvester Ball. The remains were placed beside her husband to await the call when all that sleep in him shall rise. May her mantle fall on the shoulders of her children and grandchildren in his prayer.

THE TWO GLASSES.

(Published by request.)

"There sat two glasses filled to the brim,

On a rich man's table, rim to rim. One was ruddy and red as blood,

One as clear as the crystal flood. Said the glass of wine to the paler brother:

"Let us tell the tales of the past to each other."

"I can tell of banquet and revel and mirth—

And the proudest and grandest souls on earth—

Fell under my touch as though struck by blight,

Where I was king, for I ruled in might. From the heads of kings have I torn

the crown,

From the heights of fame I have hurled men down;

I have blasted many an honored name; I have taken virtue and given shame;

I have tempted the youth with a sip, a taste

That has made his future a barren waste.

Far greater than a king, am I, Or than any army beneath the sky.

I have made the arm of the driver fail, And sent the train from the iron rail;

I have made good ships go down at sea, And the shrieks of the lost were sweet

to me,

For they said, 'Behold, how great you be!'

Fame, strength, wealth, genius, before you fall.

For your might and power are over all. 'Ho! Ho! pale brother, laughed the wine

"Can you boast of deeds as great as mine?"

"Said the water glass: 'I cannot boast Of a king dethroned or a murdered host;

But I can tell of a heart once sad
